

Tiger Media Reports Unaudited Financial Results for the First Nine Months of 2012

December 28, 2012

SHANGHAI, China--(BUSINESS WIRE)--

Tiger Media, Inc. ("Tiger Media") (NYSE MKT:IDI) (NYSE MKT:IDI.WS), formerly known as SearchMedia Holdings Limited, one of China's leading nationwide multi-platform media companies, today reported unaudited financial results for the nine months ended September 30, 2012.

Financial Highlights for the Nine Months ended September 30, 2012

- Revenue decreased 40% year-on-year from \$45.5 million to \$27.3 million.
- Operating profit increased from \$2.2 million to \$7.2 million year-on-year.
- Net profit increased from \$1.1 million to \$6.0 million year-on-year mainly attributable to one time gain on disposal of subsidiaries and gain from extinguishment of acquisition consideration.
- Acquisition consideration payable reduced from \$23.2 million at year end 2011 to \$5.7 million at September 30, 2012.
- The Company closed on two private placements pursuant to which the Company sold an aggregate of 7.0 million shares of the Company's common stock at a price of \$1.00 per share.
- The Company's Convertible Note Holders converted \$3.1 million in convertible notes into common shares at a price of \$1.00 per share.
- After giving effect to the approximately \$2.1 million of proceeds received from the warrant price reduction and exchange completed on December 26, 2012, shareholders' equity would be \$5.6 million and cash would increase to \$9.4 million.

Unaudited Financial Results for the Nine Months ended September 30, 2012

Revenue decreased 40% to \$27.3 million in the first nine months of 2012 from \$45.5 million for the same period last year primarily due to the divestiture of Zhejiang Continental, Shenyang Jingli and Qingdao Kaixiang, the streamlining of Ad-Icon Shanghai's non-profitable elevator business and the termination of our VIE structure.

Gross profit decreased year-on-year from \$10.6 million in the same period last year to \$3.1 million as a result of a decrease in revenue during the period, divestiture of Shenyang Jingli, Zhejiang Continental, Qingdao Kaixiang, and streamlining of the Ad-Icon Shanghai elevator business while still incurring contracted advertising space lease costs. Gross margin decreased to 11.4% from 23.3% in the same period last year due to higher concession costs, higher network expansion cost, higher percentage of agency business in advertising revenue, and recent subsidiaries separation and elevator business streamlining.

Total operating expenses (excluding divestment related gain) for the first nine months of 2012 were \$7.1 million compared to \$8.4 million for the prior year period as a result of business streamlining and management's continued efforts to control costs. Sales and marketing expenses decreased 47% to \$2.0 million from \$3.8 million in the prior year period, primarily reflecting a proportional decrease in sales commissions as a result of lower revenue. General and administrative expenses increased 10% to \$5.0 million from \$4.6 million in the prior year period, reflecting an increase in agency expenses.

Operating profit was \$7.2 million compared to \$2.2 million due to the \$11.1 million gain on disposal of subsidiaries and extinguishment of certain acquisition consideration payable. Net profit for the first nine months of 2012 was \$6.0 million compared to \$1.1 million in the prior year period due to a gain on the disposal of subsidiaries and the extinguishment of certain acquisition consideration payable.

Adjusted net loss for the first nine months of 2012 was \$3.8 million compared with net profit of \$1.2 million after excluding non-cash items such as the gain from the extinguishment of acquisition consideration payable of \$3.0 million, the gain on disposal of subsidiaries of \$8.1 million, the loss on abandonment of lease of \$0.5 million, the loss on disposal of fixed assets of \$0.4 million, and share based compensation of \$0.4 million. Please refer to the non-GAAP reconciliation table provided at the end of the release for a period-over-period comparison of non-cash adjustments.

Earnout liabilities as of September 30, 2012 totaled \$5.7 million down from \$23.2 million at December 31, 2011. Additional reduction of the earnout liability is expected in fourth quarter of 2012. For the nine months ended September 30, 2012, the Company had a weighted average number of basic and diluted shares outstanding of 20.3 million shares. After giving effect to the approximate 1.7 million shares to be issued as a result of the December 2012 warrant exercise, the Company will have basic and diluted shares outstanding of approximately 30.1 million shares.

During the 2012 third quarter, the Company closed on two private placements with certain accredited investors pursuant to which the Company sold an aggregate of 7.0 million shares of the Company's common stock at a price of \$1.00 per share. Additionally during the 2012 third quarter, all of the Company's investors from its February 2012 Convertible Note Offering agreed to convert their Convertible Notes (including accrued interest) into common shares at \$1.00 per share.

As part of the Company's initiative to divest non-performing businesses and based on a study of the performance and projections of Wuxi Ruizhong Advertising Co. Ltd. ("Wuxi Ruizhong"), the Company agreed to divest Wuxi Ruizhong back to its previous owners and eliminate the related earnout liability of \$0.3 million, other liabilities of \$0.3 million and income tax payable of \$0.7 million. In connection with this divestment, the Wuxi founders returned to the Company for cancellation the 132,272 shares previously issued to them for settlement of the Company's earnout obligations. As of November 30, 2012, Wuxi Ruizhong's operating results will no longer form part of the Company's consolidated financial statements. The Company believes that the cost savings from not carrying out the remaining earnout obligations pursuant to the acquisition agreement for Wuxi Ruizhong frees up the Company's resources for use in other more promising opportunities.

Peter W.H. Tan, Chief Executive Officer of Tiger Media remarked, "The results of the nine months of 2012 shows a trend of decreased revenue for the Company as we focus on improving the margins and the bottom line and continue to streamline our business by closing unprofitable offices and divesting certain subsidiaries and eliminating the underlying earnout liability in order to pursue more accretive concession opportunities. These actions however, resulted in reduced performance in the first nine month of 2012. Going forward, we believe that we will create significant shareholder value through strategic, long term proprietary concessions with prominent partners. We have additional potential concessions and acquisition opportunities in our pipeline and we expect additional announcements shortly.
