## Forward-Looking Statements Safe Harbor

This presentation contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995, as amended. These forward-looking statements speak only as of the date hereof and are based on the Company's current plans and expectations. While we believe these expectations, assumptions, estimates and projections are reasonable, such forward-looking statements are only predictions and involve a number of known and unknown uncertainties and risks, many of which are beyond the Company's control. Factors currently known to management that could cause actual results to differ materially from those in forward-looking statements include the following: compliance with a significant number of governmental laws and regulations, including those laws and regulations regarding privacy and data; failure to safeguard the personal information and other data contained in our database; unfavorable global economic conditions, including as a result of health and safety concerns around the ongoing COVID-19 pandemic; failure to compete effectively against other online marketing and advertising companies; dependence on third-party publishers, internet search providers and social media platforms for a significant portion of visitors to our websites; dependence on our key personnel; dependence on emails, text messages and telephone calls, among other channels, to reach users for marketing purposes; competition we face for web traffic; ability to compete and manage media costs in an industry characterized by rapidly-changing internet media and advertising technology, evolving industry standards, regulatory uncertainty, and changing user and client demands; liability related to actions of third-party publishers; limitations on our or our third-party publishers' ability to collect and use data derived from user activities; ability to remain competitive with the shift of online interactions from computers to mobile devices; dependence on third-party service providers; management of the growth of our operations, including the integration of the AdParlor and Winopoly businesses and other acquired business units or personnel; management of unfavorable publicity and negative public perception about our industry; failure to meet our clients' performance metrics or changing needs; risks associated with the expansion of our international operations; failure to detect clickthrough or other fraud on advertisements; achievement of some or all of the benefits that we expect to achieve as a stand-alone company; failure to adequately protect intellectual property rights, or allegations of infringement of intellectual property rights; compliance with the covenants of our credit agreement; and the potential for failures in our internal control over financial reporting. These and additional factors to be considered are set forth under "Risk Factors" in our Annual Report on Form 10-K for the fiscal year ended December 31, 2019 and in our other filings with the Securities and Exchange Commission. You are cautioned not to place undue reliance on forward-looking statements when evaluating the information presented herein, and the Company undertakes no obligation to update or revise forward-looking statements to reflect changed assumptions, the occurrence of unanticipated events or changes to future operating results or expectations.

## Non-GAAP Financial Measures

This presentation contains "non-GAAP financial measures," which are adjusted financial measures that are not calculated and presented in accordance with generally accepted accounting principles in the Unites States, or "GAAP." We present non-GAAP measures, such as Media Margin, Adjusted EBITDA and ratios based on these financial measures, herein as supplemental measures of our financial and operating performance because our management believes that such information provides useful information to investors about our operating performance. NonGAAP financial measures do not have any standardized meaning and are, therefore, unlikely to be comparable to similar measures presented by other companies. The presentation of nonGAAP financial measures is not intended to be a substitute for, and should not be considered in isolation from, the financial measures reported in accordance with GAAP. For reconciliations of the non-GAAP financial measures used in this presentation to the most comparable GAAP measures, please see the Appendix to this presentation.

## Appendix

## Non-GAAP Financial Measures

We present non-GAAP measures, such as Media Margin, Adjusted EBITDA and ratios based on these financial measures, herein as supplemental measures of our financial and operating performance because our management believes that such information provides useful information to investors about our operating performance.

Media margin, defined as revenue minus cost of revenue (exclusive of depreciation and amortization) attributable to variable costs paid for media and related expenses, is a measure of the efficiency of the Company's operating model. We use media margin and the related measure of media margin as a percentage of revenue as primary metrics to measure the financial return on our media and related costs, specifically to measure the degree by which the revenue generated from our digital marketing services exceeds the cost to attract the consumers to whom offers are made through our services. Media margin is used extensively by our management to manage our operating performance, including evaluating operational performance against budgeted media margin and understanding the efficiency of our media and related expenditures. We also use media margin for performance evaluations and compensation decisions regarding certain personnel.

Adjusted EBITDA, defined as net income (loss), excluding (1) income taxes, (2) interest expense, net, (3) depreciation and amortization, (4) non-cash loss on amendment of warrants, (5) write-off of long-lived assets, goodwill impairment, (6) accrued compensation expense for Put/Call Consideration, (7) share-based compensation expense, (8) acquisition-related costs, (9) restructuring and certain severance costs, (10) certain litigation and other related costs, and (11) onetime items, is another primary metric by which we evaluate the operating performance of our business, on which certain operating expenditures and internal budgets are based and by which, in addition to media margin and other factors, our senior management is compensated. The first three adjustments represent the conventional definition of EBITDA, and the remaining adjustments are items recognized and recorded under GAAP in particular periods but might be viewed as not necessarily coinciding with the underlying business operations for the periods in which they are so recognized and recorded. These adjustments include certain severance costs associated with department-specific reorganizations and certain litigation and other related costs associated with legal matters outside the ordinary course of business. Items are considered one-time in nature if they are non-recurring, infrequent or unusual and have not occurred in the past two years or are not expected to recur in the next two years, in accordance with SEC rules.
Media margin and adjusted EBITDA are not intended to be performance measures that should be regarded as alternatives to, or more meaningful than, net (loss) income from continuing operations as indicators of operating performance. Neither of these metrics are presented as measures of liquidity. The way we measure media margin and adjusted EBITDA may not be comparable to similarly titled measures presented by other companies and may not be identical to corresponding measures used in our various agreements.
